

Pebble Brook Diploma

Our core mission is to prepare all our pupils for adulthood, developing all the essential skills that our students will need when they take their next steps after school.

Not all our subjects on our curriculum carry external accreditations. For this reason, we have developed our own qualification.

The subjects are:-

- Fun Art
- Horticulture
- Enterprise
- Digital Media
- Our World
- Health and Social Care
- Small Animal Care
- Music

The teacher will make the assessment to see if the standard has been achieved.

But we take things a little further. Each certificate will carry an expectation that certain skills taken directly from our Life Skills curriculum are met before the diploma can be achieved. These skills will be listed on the back of each certificate.

This means that a vocational scheme of work will also enhance life skills, something we believe is an extremely important part of our curriculum offer.

We expect this initiative to begin in early 2024.
